Gold was again steady at New York, quoting 115 (a)15; here brokers continued to pay 1140 1141 for it. The New Orleans tears of Tuesday mentions the following simpolar circumstance, which may worth while bearing in mind-Within the past few days certain persons have called upon various lithegraphets for copies of specimen bank checks r different merchants, under the pretext that such merchants desired to orfer new check books. The circumstance was regarded as supicious, as the persons saking for these copies were unknown, and we are informed that several lithographers and stationers called upon one the metchants whose sample check had been obtained in that way, and were informed that he had given no much order, nor had he contemplated doing so. All the facts fully justify the suploint that a swindle of some kind probably intended." There was cothing doing in local stocks yesterday. The occurrence of a meeting of stockholders of the Mississippi Tennessee railroad, caused pects, the principal topics discussed were: Will the Charleston railroad stockholders voluntarily simplify their management by having but one board of directors, and decrease their expensee by having but one set of shops; or will the boudholders step in and take matters in their own hands? Will the Musissippi and Tennessee road amalga-

mate their first mortgage bonds, now coming to maturity, with the second mortgage? 'Will the Little Rock road get the \$40,000 loan it is removed to be in quest of? I.c was also stated that Charleson railroad stocks are a perfect lottery ticket- they may pay dazzlingly if the road ean carry cut needed reforms in the stock nolder shands; they may be worth not Aing if the bondholders have to step ic, and effect those reforms themselves. ft is said, also, that the affairs of the Charleston railroad are under much better auspicies than they were sometime ago, and that when trade revives, and he road gets its stare of the active business that must come before long, it will recover it; old character and go on to a career of prosperity. THE GENERAL MARKET was less act-

ive than on the two previous days, but he demand for corn was good. Corn ing inactive in St. Louis, and dull and drooping in Chicago, although in pretty fair demand, was weaker, and most of what sold was at 86c; sacked carcorn brought Sole. Hay was in fair inquiry, and a lot of 600 bales arrived, but was not put on the market until late; it was mixed, and held at \$23.50. Oats have no strength; a couple of small lots sold at 74c. Cornmeal sold freely in the early part of the day at \$3.75, but later on \$3.80 was demanded, and sales were made at that figure. *Potatoes* were drooping at about former figures; new petatoes sold at \$6.50 a barrel, and were readily taken. New vegetables were more plenty and in nice order; the coldness of the season has kept the supply within narrow limits, so far. Pouttry were in but poor demand, and prices dragged. Eggs were slow at 14@15c. counts were nigher; a lot sold at 7½c. Hales are coming to market in unusual abundance; awhile ago they were wanted at 19c, but they are a drug now at Processions were a little harder, with a figure here and there higher; land was not so strong, the first markets | day at 115]. BUTTER-Offering in store at 12@28c; The stock market was firm at the commencement of business, with Erie, Wabash and Lake Shore sustaining the market. Later on there was a general falling off, with Union Pacific and Western Union the weak points, the latter going off on a report to the effect that the assembly had passed a bill compelling telegraph companies to place their wires underground in the city of New York, which was, however, unfounded. The market in the final dealings was weak and lower; Western Union fell off to 79, Union Pacific to 75, Lake Shore to 702, Erie to 30, Pacific Mail to 44, Michigan Central to 69, Rock Island to 64%, and New Jersey Southern to 5. The decline to-day caused quite a bearish feeling in exchange, and short interest to-night is probably larger than for some time past. Rock Island earnings for April show an increase of \$40, 600 over the same month last year.
